Projects

Javascript ♦ HTML ♦ CSS / SASS ♦ Angular ♦ Node
♦ Express ♦ MongoDB ♦ jQuery ♦ Ionic ♦ Gulp

Education

Sobox – web app www.sobox.co

Built entire front end for app. Sobox is a reputation management system, created for small businesses to send clients a text message with a generated link to leave a positive review on business's site on choice.

DevMountain Companion App – mobile app

Mobile app built in Ionic for students at DevMtn to use while attending the cohort. Front End Angular project with RESTful api's.

Experience

DevMountain / Full Stack Dev

2016 - 2016, Provo, UT

Graduated an intense 3 month immersive coding bootcamp. Learned the MEAN stack as well as taught myself to learn new technologies.

SLCC / A.S. Generals

2009 - 2012, Salt Lake City, UT

Some CS courses and Gen ED

Avantar / Front End Developer

2016 - 2017 Orem, UT

Lead Front End Developer working mostly in AngularJS with Restful API's creating web apps.

Vivint / Technician

2011 - 2016 Provo, UT

Installed residential internet and security systems. Learned how different electronics communicate with each other and how small networks work.

USPS / Data Entry

2009-2014 Salt Lake City, UT

Worked at a remote encoding center directing live mail through data entry.
